Creative Uses Clearwood®

Eau De Toilette for Her at 10%

209113 Formula

"This ingredient is an amazing new building block like Hedione® used to be for 50 years, able to create the back-bone of a formula. It has a diffusive and long-lasting character, without being overpowering, and will have tremendous hedonic consequences for fragrance creations in the future".

Harry Fremont, Master Perfumer.

Creative Uses Clearwood®

Eau De Toilette for Him at 12%

"Clearwood® is a note rich in paradox. With an unusual fluid impression, it gives volume and structure to compositions. Mysterious and addictive, it opens new ways for modern chypre inspiration... unforgettable!"

Fabrice Pellegrin, Perfumer.

Shower gel at 1%

"Clearwood® combines many facets, giving in body care application, a nice ribbon of a clean woody note. At higher dosages it brings in addition a creamy, round and lactonic sandalwood effect. Clearwood® is my vision of a feminine patchouli touch".

Wessel-Jan Kos, Perfumer.

Creative Uses Clearwood®

Softener at 1%

"Clearwood® is an intense and long lasting woody note, but at the same time, light and transparent. It differs from other dark woody notes by its simplicity and cleanliness.

It brings great versatility and lends itself for use in every conceivable type of product. It can be exploited at higher levels than other dark wood notes, thus delivering significantly more olfactive substantivity to fabric, hair and surfaces without dominating the out of bottle experience.

Rose and amber nuances bring added surprise and uniqueness to this product."

Gary Marr, Master Perfumer
