### OLFACTIVE DESCRIPTION

TEA JASMINE SFE is a fresh floral green ingredient.

The perfect balance between fresh green tea leaves and jasmine providing sweetness and softness.

● Firmenich Main Sourcing Country  
CHINA

### PERFUMERY USAGE

It blends harmoniously with citrus and sparkling notes, as well as with all types of woods, musks, and ambers. TEA JASMINE SFE can be used within feminine, genderless, or Cologne style scents.

The SFE process preserves all the facets and the natural profile identity to guarantee a high purity extract.

### CROP SEASON IN MAIN SOURCING COUNTRY

### PROCESS

Supercritical CO<sub>2</sub> Extraction is a technology in which carbon dioxide, put beyond its critical point (73 bars and 30°C), becomes a supercritical fluid with special properties.

The extraction carried out at a low temperature preserves the natural profile identity of the raw material.

The statements made on this page are indicative and not binding
